## Official Club Meeting Minutes

Date: July 22, 2024

Meeting Called to Order:

Attendance: 5 club members attended the June meeting. The meeting was held at the field.

### **Roll Call:**

President: Chris Pollock (Y)

Vice President: Jon Cross (Y)

Secretary: Rick Christian (N)

Treasurer: Dave Wurzbach (N)

1 Year Director: Ralph Warner (Y)

2 Year Director: Rich Granitz (N)

### **Treasurer's Report (Dave Wurzbach)**

*Balance 07/22/2024    \$2090.55*

Marge paid the club \$100 for gas.

### **Secretary's Report (Rick Christian)**

Rick couldn't attend, so John C. took the minutes. No report.

### **Field Report (TBD)**

The Craftsman mower seems to be running and working fine. The blade disengages on Marge's mower after cutting for a while. Chris thinks a switch might be at fault. He found it reads 2 ohms when ON, which might not be proper. A new switch is under \$15, so we'll get one to see if it solves the problem.

Chris thinks there is enough gas for the rest of the month.

### **Safety Report (John Clauson):**

An emergency phone number list is posted on the inside of the left (east) shed door.

### **Web Report: (John Clauson)**

Our domain (\$36) and Hosting (\$120) will renew this week for \$156.

Since we don't have any new pictures to post, John might start posting legacy photos

## Official Club Meeting Minutes

### **Old Business: (Chris)**

Review: the club picnic will be on 8/24. Jon Earley will take care of the food. Members can bring a dish to share. Flying starts at 10:00, food at noon. We'll do streamer combat again.

### **New Business: (Chris)**

There was some discussion about the future of the field, such as mowing issues and maintenance costs. It was agreed that the subject be tabled until a future meeting with more members present.

Chris has a couple of Sky Knights memorabilia items for raffling off at the picnic.

### **Good of the Club / Show and Tell: (All)**

Jon Cross showed his blue fanfold Star Trek Enterprise build. For now it's mostly taped together, and appears quite sturdy. It's meant to run on a 3S 1300 mAh battery. He described the carbon fiber reinforcements and some ideas on how to decorate it. The plans came from RCGroups.

Chris showed his current favorite plane to fly: a Dynam Model 12 biplane from Motion RC. He had to modify the weak landing gear but otherwise the plane looks and flies great.

**The meeting adjourned at 7:38 PM.**
